Be able to identify:

- Definition
- PART OF SPEECH
- SPELLING
- How to use the word in a sentence that shows you know the meaning of the word

# What's Wrong with This Picture?

Carefully study the pictures of scenes, objects, or persons below. Using the information you have learned through chapter fifteen, decide whether the picture is one you would likely see in Jonas's community. Under the picture, write yes or no and give at least one reason to support your decision. Use page numbers if possible. A sample answer for number one is given.

1. No. You would not find an artist's painting palette in the community because color is unknown. There is only "Sameness," as *The Giver* explains to Jonas on page 94.
